

Our Homeless Veterans Need your Support. I have helped many Veterans that have been living in the woods, who stand on the street corner and hold a sign and take the money they get and go to the Liquor store buy a bottle of Liquor and go back to their tents in the woods and drink to their past memories, hopes to their futures and pass out till the next day.

Our veterans could get help from the VA and other 501c help agencies but they don't want the help. Some of our veterans have been divorced from their wife and start drinking or they started drinking that led to the divorce of their wife and then starts to wander the streets, sleep on the park bench, under a Bridge, camped out in the woods, or curled up in the doorway of a local store front.
